Sikkema Comments On Land Use Report

LANSING – Senate Majority Leader Ken Sikkema, R-Wyoming, today offered the following statement on the final report of the Michigan Land Use Leadership Council:

“I want to thank Governor Milliken and Attorney General Kelly for their leadership as co-chairmen of the Michigan Land Use Council as well as the members for their hard work. The Michigan Senate is going to give serious consideration to each of the council’s recommendations.

“Michigan has a long history of dealing with land preservation and protection in a proactive and sensible manner. Any comprehensive land use policy will focus heavily on making Michigan’s core cities and urban areas more appealing places to work and live – places with good schools and educational choices for parents, neighborhoods where families feel safe, and communities that attract business investment and good-paying jobs.”

A copy of the Council’s report is available online by visiting: www.michiganlanduse.org.
